

VectorCheck API v1 OAS 3.1

/v3/api-docs

API for technical inspections and report generation in compliance with NR-12 and NR-13 standards.

Domain Disclaimer

The domain names, URLs, and hostnames used in this API documentation (e.g., [api.vectorlabs.com](#), [vectorlabs.com](#)) are **fictional and provisional**.

They are used **solely for demonstration and documentation purposes** and do not represent a finalized or officially registered domain.

If any of the mentioned domains are currently in use by third parties, there is **no affiliation, endorsement, or relationship** between this project and such entities.

Project Status

This API is **under active development** and represents an evolving software product. New features, improvements, and refinements are continuously being added.

Purpose

The main goal of this project is to:

- Demonstrate backend engineering skills
- Showcase API design, security, and documentation best practices
- Serve as a professional portfolio for freelance and full-time opportunities

Technical Focus

This project emphasizes:

- Clean REST API design
- Strong validation and error handling
- JWT and OAuth2-based security
- Well-structured OpenAPI (Swagger) documentation
- Production-oriented architecture

Notes

Although this API is functional and stable, some features may be incomplete or subject to change as part of ongoing development.
